## One of the most powerful pellet guns on the market

Inspired by US Air Force base Langley, we have developed the most powerful line of break barrel air pistols on the market. The Hitman (hired killer in English) evokes Hollywood films and their precision weapons, removable, discreet and with silencer (here fake, to decorate the barrel).

- Armament by tilting cannon
- High density polymer body
- Detachable polymer stock to transform your pistol into a rifle
- 21mm Picatinny mounting rail with open fiber optic sight
- Extremely deep tan
- Very high quality internal parts
- Adjustable trigger during the race
- FMB steel fret
- 30 cm long barrel with textured grip for easier cocking
- Ambidextrous controllers

Attention, do not cock the pistol while leaning on the stock, under penalty of not being taken in warranty if it breaks.

On-Packaging: 1 box = 4 guns
